People counting in public areas to manage **real time occupancy**

« Ensure the safety of all your visitors »

FOR WHOM ?

- **Museums**
- **Swimming pools**
- **Event spaces**
- **Office buildings**
- **Theme park**

WHY ?

- To manage the real-time occupancy rate
- To prevent
- Areas mangement
- Post-event analysis

In order to respect security rules, a public establishment have to receive a limited number of visitors according to its size and evacuation system. The only way to know your real-time occupancy and ensure safety to your visitors is to count them.

ADVANTAGES
